DISTRIBUTION OF LAPTOPS TO THE BENEFICIARY SCHOOLS

DigiGyel: Building AI-Ready Youth and Schools
Period: 2026-05 | Type: DELIVERABLES
Date: 10 July 2026

EXECUTIVE SUMMARY

During May, the team focused on preparing and finalizing training materials to align with program objectives. The materials were enhanced for quality, clarity, and relevance, ensuring they effectively support teachers and students in the learning process.

In addition, the distribution of laptops to schools was carefully planned and executed. Schools were selected based on need, and devices were delivered with proper record-keeping to ensure smooth implementation.

A total of 73 schools across 13 dzongkhags benefited from the initiative, significantly improving access to digital learning resources and strengthening technology-enabled education.
